

## Connecting Passions and Talents to Needs

Let's look at how your passions and the needs or gaps that you see in your community connect! On the left side of the V Diagram below, list ways you see your passions in action. For example, if you are passionate about animals, what does this passion look like in action to you? Is it through animal shelters and adoption? Or is it more protecting and preserving animals? Think big!

On the right side of the Venn Diagram, think about the ways the needs or gaps you identified impact other people in your community. For example, if you said homelessness, what does this look like in your community? Do you see this affecting families or individuals? Think about specific ways you see this impact your community every day. On the left side, think about what your passions look like in action. if you are passionate about animals, how does this look in your daily life?

In the overlapping area, start making connections! Circle ways your passions connect to those needs you identified. For example, if you said you're passionate about helping with wildfire relief and you see organizations helping provide supplies to firefighters, you made a connection!

Looking at your Venn Diagram, complete the sentence below:

I am passionate about \_\_\_\_\_ . My passion connects to \_\_\_\_\_ that I see in my community. I am passionate about making a difference or helping \_\_\_\_\_ in my community!
