

# What do You See?

Philanthropists look at their communities and ways they can use their time, talent and treasure to help people, places and animals in need. You have time, talent and treasure that you can give to help others which makes you a philanthropist! Your job as a philanthropist is to look at the picture and circle all the problems you see. Then, think of ways you can help make those problems better using your TIME, TALENT and TREASURE.

Time
