

Like a Snowflake

Did you know that each of us is like a snowflake? It's true! Every snowflake that falls is one of a kind in shape, size and design. No two snowflakes are exactly alike. And like a snowflake, YOU are unique and equipped with a special heart that can make a difference. One way we can make a difference is through using our talents. We all have unique talents that we can use to give back to our communities and make the world better.

Use the snowflakes below to write out three talents that you have. Do you like to skateboard? Are you good at video games? Do you love to draw? Can you play an instrument? Those are all talents that you can use to give back! Write down your talent and then think of one way you can use your talent to help someone else. Maybe you can teach someone to skateboard or play music at a retirement home. Whatever way you choose to use your talents to give back is unique to you.

Just like a snowflake!
